NOTICE.

It is hereby notified, for general information, that subscriptions to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions for the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

H. A. D. PHILLIPS,

Under-Secy. to the Govt. of Bengal.

The 24th November 1886.

The following revised advertisement is published in substitution of that which appeared at page 1084, Part II of the *Calcutta Gazette* of the 9th July 1884:—

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat; the copies for subscribers registered by Messrs. Thacker, Spink & Co., are distributed by that firm; and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1885, the terms of subscription and sale will be as follows:—

Terms of subscription payable annually in advance.

For the complete series, including postage, Rs. 22-8.

PUBLIC WORKS DEPARTMENT.—BENGAL.

DISTRICT ROAD FUND.

NOTIFICATION No. 113.

The 31st March 1887.

THE accounts and reports of the Road Committees of the districts of Chittagong, Noakhally, Tipperah and the Chittagong Hill Tracts for the cess year 1885-86, together with the remarks thereon of the Commissioner of the Chittagong Division, are published for general information.

W. B. BESTIC,

*Under-Secretary to the Government of Bengal,
P. W. Dept.*

No. 263L., dated Chittagong, the 20th December 1886.

From—The Chairman of the District Road Cess Committee, Chittagong,
To—The Commissioner of the Chittagong Division.

I HAVE the honour to submit the annual report and accounts of the Chittagong District Road Cess Committee for the last cess year, showing in detail how the money was spent on the various roads of the district.

2. Messrs. A. Manson and S. J. Douglas were the Chairmen, and Baboo Dina Nath De, Mr. Douglas and Mr. Herald were the Vice-Chairmen during the year. The Committee consist of 21 members, and some of them took interest in their work.

3. There is a Branch Committee at Cox's Bazar, who were entrusted with a sum of Rs. 4,000 for improving the village communications in that part of the district, and the district roads of the subdivision were placed under the supervision of the District Engineer. Mr. Mackertich, the Chairman of the Branch Committee, reports that the members of the Branch Committee took no interest, as the funds placed at their disposal were "nominal." The amount spent for roads of the subdivision, which were placed under the supervision of District Engineer, is Rs. 16,104-3-11.

Planting trees.—Nothing has been spent towards this work during the year, as the planting of trees is not much wanted in this district. The trees planted on the Ramghur and Hill Tracts roads during the previous years have been maintained. The following would show the nature of the work done on each road during the year.

No. 1. *Robertgunge road.*—Surface repair and turfing have been executed on this road. Bamboo rivetments have been put on the sides of the road in places for protection from the rush of the water from the hills. Brick-metalling has been executed to the approaches of bridges Nos. 1, 2 and 3. The road is in good order and is fit for cart traffic. Bridge No. 3 will be made of iron.

No. 2. *Mahajan's Hât road.*—It has received surface repair. Two pucca culverts on it have received necessary repairs. The first three miles of the road is passable for carts, and the rest will be so when one bridge across a khal is put up.

No. 3. *Moheshkhali Strand road.*—Repair to the surface has been executed. Sanding has been done to the first mile of the road; all the bridges on it have received necessary repairs. The road is in good order and fit for cart traffic.

No. 4. *Halishahar road*.—Repairs have been done to the road: surface and necessary repairs to the metalling have also been done to the approaches of the pucca bridges.

No. 5. *Moheshkhali towing path*.—The allotment of this road having been struck out from the budget, no repair has been done to this road during the year.

No. 6. *Tipperah Pass road*.—Jungle from the sides of the road has been cleared and surface repair done. Bridges on the road have also received necessary repairs. Brick-metalling to the first saddle, which used to become miry during the rains, has been finished.

No. 7. *Flora Pass road*.—It has received necessary surface and bridge repairs. The road is in good order and passable for carts.

No. 8. *Nassirabad road*.—It has received surface repair throughout its length, and jungle has been cut down from its sides. The bridges Nos. 4 and 5 on the road have been thoroughly repaired, but for want of funds the pucca wings of bridge No. 5 could not be repaired. This will be done in the current year. The road is in good order and fit for carts.

No. 9. *Bacolia road*.—Surface repair and sanding has been done to the road.

No. 10. *Kalurghat road*.—Necessary repairs to its surface and bridges have been executed. Iron wings have been put to bridges Nos. 5, 7 and 8.

No. 11. *Ramghur road, I Section*.—Three inches of earthwork has been executed over this road throughout its length. Jungle has been cut down from its sides. Bamboo rivetments have been put in the 11th mile for protection of the road from encroachment of hill stream. All the bridges on this line have been repaired. Brick-metalling has been executed to the approaches and over the crown of bridges Nos. 1, 2, 4, 5, 6, 7, 8, 9, 11, 12, 17, 21, and 30. The road and its bridges are in good order and freely passable for carts.

No. 12. *Ramghur road, II section*.—It has been divided into two portions, A and B.

The first portion is 14 miles in length, from the 13th mile up to Fatikcherri in the 26th mile. The first five miles of this portion of road have been repaired with 5,000 cubic feet of earthwork per mile, and the rest with four inches of earth all over the surface. The slopes of three crossings on this road, on which there are public ferries, were maintained. There are two inspection bungalows on this road—one at Koter Hât, and the other at Fatikcherri, both of which have been thoroughly repaired.

The second portion of the road runs from Fatikcherri in the 26th mile to Ramghur, and is 24 miles in length. Earthwork has been done on approaches of 17 pucca bridges only, and the slopes of crossings on which there are public ferries and of a gap have been maintained. Jungle has been cut in the 34th, 35th, 36th, and 37th miles, and a timber mile-post has been renewed. There are two inspection bungalows on this road—one at Kajee's Hât and the other at Narayan's Hât. The former has received petty repairs and the latter thorough repair.

No. 13. *Fenuah road*.—It has been repaired with 3 inches of earthwork in the first and second miles, and with petty earthwork in the remaining miles. Jungle has been cleared from the road, and metalling has been done over pucca bridge No. 1. Bridges Nos. 4 and 8 have been partly repaired with jungly wood. Wooden bridges Nos. 4, 12 and 13 of this road had to be replaced with iron ones, but the estimates for these having been sanctioned very late, these could not be replaced during the year, but the bridges are now ready and will be taken up in hand shortly. The road is in fair order.

No. 14. *Hill Tracts road, I section*.—The first two miles of this road have been repaired with three inches of earth over its surface, and the remaining 4 miles with 4,000 cubic feet of earthwork per mile. The trees planted on this road have been maintained by renewing their fencings. There is a crossing of Halda in the third mile, on which there is a public ferry. Brick metal has been put over pucca bridge No. 2. Timber bridge No. 1 has been coal-tarred. Jungly wooden foot bridges Nos. 6, 7, 10 and 14 have been thoroughly repaired. The bridge No. 15, which was of jungly wood, has been replaced with iron one. The first mile of the road is drivable, and the rest is a bridle path.

No. 15. *Hill Tracts road, II section*.—Only two and a half miles of this road is under repair. Petty repairs have been done to this portion of the road, and jungle has been cleared from its sides. The inspection bungalow at Roujan has received repairs of petty nature. The timber substructure of the bridge over Kaskhalli has been replaced with iron, and four tatty bridges have been renewed.

No. 16. *Chandpore road*.—The surface of the road and the inspection huts on it have received petty repairs only. The first two bridges and those on the south of the Sanghoo are only fit for cart traffic. The bridges on the south of Kamdar Fakir's hât up to the Sanghoo are only four feet wide, and therefore not passable for carts. It has been proposed to make these bridges fit for carts during the next year. The waterway of bridge No. 2 has been increased by 20 feet. Five wooden bridges on the south of the Sanghoo have been replaced with stoneware pipes.

No. 17. *Anwara road*.—The whole of the road has received a coating of three inches earth-work. The wooden bridges, two in number, are only four feet wide. However, they have received petty repairs.

No. 18. *Poroikora road*.—The gaps in the first seven miles have got tatty and wooden bridges over them. In the remaining five miles sankoes have been put over the gaps. Earthwork has been executed only to the third, sixth and seventh miles. The wooden bridges have received petty repairs only. The bed of Murali khal at its crossing of the Poroikora road is extremely miry, and it is highly desirable that an iron foot bridge be put here. If the Committee like to charge the passengers when passing this bridge, they would gladly pay double the ferry rate now they are paying, and the cost of bridging will be realized within four or five years.

No. 19. *Dhalghat road*.—The surface of the road and its bridges have received petty repairs.

No. 20. Sakirapole road.—The whole of the road has received a coating of three inches earthwork. The bridge repair could not be completed owing to the delay in getting iron-work from England.

No. 21. Towing-path on the bank of Boalkhali Nullah.—The last three miles of this path was very low, and has been raised during the year. The bridge repairs could not be finished owing to the delay in getting ironwork for the same.

No. 22. Arracan road, I section.—The rivers and streamlets crossed by this line of road are Sreemati, Bargunies, Sanghoo, Hangar, and Tongahati. All these nullahs have got sandy beds, and therefore have no bridges over them. The approaches, however, have easy slopes, and the carts can pass without much inconvenience. The surface repairs of the road was undertaken by Mr. F. W. Higgins of Khorona. The bridge repairs are still in progress and will be finished shortly. The last year's unusually heavy floods damaged many bridges on this line. The inspection bungalows on it have received necessary repairs.

No. 23. Khorona road.—Both surface and bridge repairs of the road were executed by Mr. F. W. Higgins of the Khorona tea garden.

No. 24. Cox's Bazar road.—The road has been raised and widened in the sixth, seventh, and eighth miles, and surface repairs have been done in places. Timber bridges have received necessary repairs. A new inspection bungalow has been constructed at Ramu. The inspection bungalow at Cox's Bazar has also been repaired.

No. 25. Meetaserrah road.—Repairs to its surface and bridge No. 1 have been done. Trough plate bridges over gaps Nos. 2 and 3 have been put up. Jungle has also been cleared from its sides.

No. 26. Issapore road.—The first five and the last two miles of this road are under repair, there being no road in the remaining portion. No doubt it will be great improvement if the whole line of the road is opened out by acquiring land. The first five miles of the road have been repaired at a cost of Rs. 12 per mile. Jungle from these miles have been cleared. Bamboo foot bridges and tatty bridges have been put over its gaps, and two timber bridges have been repaired. The road is a bridle path.

No. 27. Kadalpure road.—This road has been repaired with 5,000 cubic feet of earthwork per mile up to $7\frac{1}{2}$ miles, and $1\frac{1}{2}$ miles have been repaired with three inches of earthwork on the surface. The remaining mile is not repaired, there being no road. Jungle from the road has been cleared, and the inspection bungalow at Ramgatiee's Hât has been thoroughly repaired. Timber bridges Nos. 35 and 36 have been thoroughly repaired, and bamboo abutments, foot bridges, and tatty bridges have been replaced over its gaps. The road is a bridle path.

No. 28. Rangunia road.—It has been repaired with three inches of earthwork all over its surface, and jungle has been cleared from its sides. The inspection bungalow on this road has also been repaired. The road was very much damaged by the flood of July last, and has been put right. Timber bridges Nos. 1 and 12 on it had to be replaced with iron ones, but they could not be done so as the iron work was not received in due time. The iron bridges, however, are now ready, and the work of the same has been taken in hand. The road is drivable all along.

No. 29. Arracan road, II Section.—In the first portion of this road jungle-clearing has been done in the Dhallas three times in the year, stoneware pipes have been put in three places. Many of the gaps have been filled up, diverting the course of the drainage to the adjoining nullahs. Bamboo foot bridges have been put over all the gaps, and the jungle clearing done in the Dhallas. The inspection bungalows have received petty repairs. In the second portion jungle-clearing has been done from the beginning up to the 78th mile, and surface repairs up to the 69th mile. The road has been raised in places from the 70th to 76 miles. Foot bridges have been put to right. The inspection bungalows have also received necessary repairs.

No. 30. Ramoo Branch road.—The road has been widened and raised from beginning to the 74th mile. Tatty bridges have been put up over gaps with soft beds for cart traffic. Some trough plate bridges are also being put up. Bamboo foot bridges over the remaining gaps have been put up. Jungle has been cleared from sides of the road throughout its whole length. The inspection bungalow at Eadgong has received necessary repairs. A new inspection bungalow at Ramkahat has been erected.

No. 31. Garjonia dak line.—Repairs to surface have been done, and jungle has been cleared from its sides. Bamboo foot bridges have been put up over all gaps.

No. 32. Teknâf road.—Jungle from sides of the line has been cleared, and bamboo foot bridges put over all gaps. Two new inspection bungalows have been erected, one at Khilla, and the other at Teknâf.

No. 33. Rampore road.—Earthwork has been executed in the 11th and 12th miles. Bamboo sankoes have been placed across all the gaps and nullahs. The inspection bungalow at Deodiggi has received petty repairs.

No. 34. Jaldi road.—It is an incomplete road. A portion of the road up to the 14th mile has also been completed, the first nine miles of which up to Jaldi, are annually maintained. Bamboo foot bridges have been put over the gaps up to Jaldi to make the road fit for dak runners and foot passengers. The inspection bungalow at Chakoria has received repairs.

No. 55. Sagorkotta Dhalla.—It has been repaired with earthwork in plains, and the portions in the hills have been dressed and levelled. Jungle of the road has also been cleared. Stoneware pipes of 12" diameter have been placed in three places, and timber foot bridges of entire log of jungly wood placed over all the gaps. It is the only short cut joining the Trunk Road with the Halda valley, but it is not rideable.

No. 56. Salkania road.—The surface of the road has received a coating of three inches all over its length. The bridge repairs are still in progress owing to the delay in receiving iron-work from England.

No. 57. *Sakpura road*.—Earthwork has been executed in places. Five culverts of stoneware pipes have been put during the year. Bamboo sankoes over big gaps have also been maintained.

No. 58. *Kolagong road*.—It has received a coating of three inches of earth all over its surface; necessary repairs have been done to its bridges.

No. 59. *Kattoli road*.—Necessary repairs have been executed to the surface of the road and its bridges. The road is in fair order and passable for carts.

No. 60. *Captain Leak's road*.—It has received surface repair but it has been damaged in places by the flood of July last. Channel iron bridges have been placed over gaps Nos. 3, 4 and 5, and stoneware pipes have been put in other gaps. This road is not passable for carts for narrowness of the road and for want of wide bridges, and one iron bridge will be constructed over gap No. 2.

No. 61. *Patia Anwara road*.—The portion of the road from Jagadamba's Ghat to Anwara was very bad, and most of the estimated quantity of earthwork has been executed here. Bamboo sankoes have been maintained throughout the year. The last year's flood caused much damages to the road, specially near Srimati. In the 5th mile the road crosses the Chandkhali, where there is a ferry belonging to Baboo Kailash Chundra Rai, Zemindar of Porokorah.

No. 62. *Modan's Jungal*.—This road has been repaired with three inches of earth all over its surface. Jungle from the road has been cleared. Tatty bridges have been replaced over its gaps, 12 in number. Three iron bridges will be constructed in this road.

No. 63. *Ronjan road, I Section*.—It has been repaired with three inches of earth all over its surface, and jungle has been cleared. An inspection bungalow has been constructed at Chowdry's Hat during the year. The bamboo foot bridges, tatty bridges and culverts have been replaced. Glazed stoneware pipes of 12" diameter have been put in one of the gaps. Bamboo hand railing have been given to channel iron foot bridges from the contingencies of the sanctioned estimate for this road. An iron bridge had to be constructed over Kanotia, but it could not be constructed so owing to the delay in receiving iron-work. It will be taken in hand as soon as ever the bridge is ready. The road is not yet fit to be used as a bridle path.

No. 63. *Ronjan road, II Section*.—Three inches of the earth has been put all over its surface during the year. Jungle has been cleared from the road and its sides. Glazed stoneware pipes of 12" diameter have been put in two of its gaps and two-mile posts have been fixed on the road.

No. 64. *Chandraghona road*.—The first two miles of this road have been repaired with 5,000 cubic feet of cartwork per mile, and the other three miles with three inches of earthwork all over their surface. The jungle has been cleared from the road. Some of the gaps of this road have been shortened, and bamboo foot bridges placed over them. Four iron bridges are being put up on this road, and the channel iron from them to be utilized in their gaps.

No. 65. *Pomora road*.—The road has been repaired with three inches of earthwork. About two miles of the road has been raised two feet high and its sides turfed. Jungle of the road has been cleared. Bamboo foot bridges have been replaced. An additional channel iron has been put all along the length of Issakhali channel iron foot bridge to make it wider. Mile posts have been fixed to the road from the contingencies of the sanctioned estimates.

No. 48. *Boalkhali canal*.—Silt clearance has been done to this canal during the year. Tides both from Karnafulli and Sangoo coming from opposite directions meet in this canal near Lalia's bridge, and in consequence deposition of silt happens in the bed of the canal. For convenience of navigation silt clearance is required in this canal every third year. The present length of the canal where silt clearance is necessary is over two miles.

No. 50. *Banskhali canal*.—Silt clearance has been done here in the cess year 1883-84. It will probably have to be cleared of silt again in the next year. There are good deal of curves (bends) near the Kumaricherra. It will therefore be advisable to straighten them when the khali is to be cleared of silt next time.

Road cess office building.—Work of the building has been commenced; 983 cubic feet of concrete, 13,063 cubic feet of brickwork in foundation, and 7,682 cubic feet of masonry in superstructure have already been executed. Rolled joists, beams, and other materials have been collected at the site. Teakwood doors and windows have been prepared. The work of the building have been stopped for want of good bricks. Bricks will be manufactured and work commenced in the next season. The work is expected to be completed within the 31st May 1887.

Work shop.—One workshop has been kept in the head-quarters for fitting up iron bridges, the materials of which are procured from Europe. The bridges have been fitted up here by local labour under supervision of two fitters who have received their training in the Calcutta Work-shops, and the officer in charge of the head-quarter subdivision, and then despatched and fixed up in their respective sites. Though it has entailed heavy pressure of work on the establishment, bridges have been prepared here at a considerably less cost than the cost of prepared bridges received from England.

Establishment.—The establishment has worked well this year. With regard to the remarks made last year by the Vice-Chairman, the Accountant was reinstated, and his character was cleared from any imputation of misconduct, he knows his work, and he has worked hard this year.

S. J. DOUGLAS,
Chairman.

No. 114R.C.C.—VII—3, dated Noakholly, the 27th December 1886.

From—R. M. WALLER, Esq., Chairman of the District Road Cess Committee,
To—The Commissioner of the Chittagong Division.

I HAVE the honour to submit herewith the Annual Report and accounts of the District Road Cess Committee of Noakholly for the cess year 1885-86.

Original Works.—A sum of Rs. 17,492-3-9 was spent in original works, which consisted chiefly of constructing bridges on the existing roads and paying compensation for lands acquired for Pasuram and other roads lately made. No important new road was constructed this year. Sundip road was extended southward about three miles from the thana up to which it was constructed before. About half a mile of roadway was made at Companygunge to bring the Chittagong road across the chur up to the west bank of the Little Fenny. The approaches to several ferries were improved; portions of the old Lakhipur and Beumungunge road were raised above the flood level. Two of the loops of the khal running close by the old Lakhipur road near Jackson's bridge were cut across, and new and straight channels opened in one place so as to lead the current away from the roadway, which it threatened to breach, and in another to avoid having to bridge the khal in two places where the loop cut the roadway. The west side drain of the Senbag road was excavated so as to make a continuous waterway. Three bridges on Sundip road, two on Hattiah road, and eight on other roads were constructed during the year. Materials for other bridges were collected.

The project of opening steamer communication has not developed further. The expense, it was found, would be very heavy, and the matter has been, it is understood, under the consideration of Government.

Repairs.—All the roads that really exist under the charge of the Committee were repaired during the year, and a sum of Rs. 36,088 was spent for maintaining them. These are all unmetalled roads, and are, I think, on the whole in at least as good condition as formerly; but during the rains some of them became very muddy, owing to the heavy rainfall of this year and height of flood-level. The two main roads of the district, viz. Bhovanigunge and Dewangunge, were kept in a fair condition throughout the year.

The rainfall being very heavy in the year, the floods were exceptionally severe and destructive. It is said to have been the highest flood for several years past, and damage was done in consequence to most of the roads. All the roads in the east of Fenny sub-division were damaged more or less, but the damage to the highly embanked portion of the road from Fenny to Chagolnya was the most considerable. This road offered a strong resistance to the flood, lying, as it does, transversely across the line of drainage. One masonry abutment of an iron bridge on this road was destroyed, and the earthwork partly washed away on one side of the road for nearly a mile in length. Several breaches were made in Pasuram and Captain Lick's roads, which were overtopped by the flood-level in places, but were not much damaged.

In the northern part of the district the roads were submerged by water, which damaged the embankment. Cuttings were made in the roads for letting the water through. The flood rose to the level of the houses and gardens of the people, and threatened to destroy the paddy and supari trees.

Station roads.—The metalled roads in the Municipality were all repaired in the year, and are in fair order. A sum of Rs. 2,517-8-6 has been expended for this purpose.

Inspection Bungalows.—Three inspection bungalows, the construction of which was sanctioned last year, were commenced this year: two of them are finished, and the other three-fourths completed.

Village roads.—A sum of Rs. 5,527-1-5 was spent during the year on the construction of the village roads. Of this sum, Rs. 2,222-9-3 was spent by the Fenny Branch Committee on village roads in the Fenny and Chagolnya thannas. Three roads were completed by the Branch Committee and several others taken in hand. Several of these were not village roads proper, and the Branch Committee exceeded their powers and broke the rules by making them. Village roads ought not to require professional assistance, but the Chairman of the Branch Committee has stated that some of the roads were defectively made for want of professional supervision, which they ought not to have needed.

Planting trees.—No new trees were planted during the year. The trees planted before were maintained during the year. They are mostly doing well, and in good condition. Some of them are beginning to bear fruit. During the rains the water rose as high as the roots of some of them, and a few died in consequence.

Establishment.—The Vice-Chairman has attended to his duties, but his relations with the District Engineer were not such as to enable me to fully utilise his services. This is the second term of service he has completed as Vice-Chairman, and the experience he has so gained is considerable and advantageous.

The District Engineer has given satisfaction on the whole, but he does not keep sufficient control over his subordinates. His absence for two months, owing to a severe attack of fever, naturally prevented things going on as well as might be desired. The sub-overseers, with two exceptions, worked fairly.

RAMLAL SEN,
Vice-Chairman.

No. 147 R., dated Commilla, the 29th December 1886.

From—S. S. JONES, Esq., Chairman, Road Cess Committee, Tipperah,
To—The Commissioner of the Chittagong Division.

UNDER section 179 of Act IX (B.C.) of 1880, I have the honour to submit the following report on the Road Cess administration of this district during the cess year ending 30th September 1886, together with a copy of the annual accounts of income and expenditure for that period, as passed by the District Road Cess Committee at a special meeting held on the 11th December 1886.

2. *Audit report.*—The Sub-Committee appointed for the purpose of scrutinizing accounts held monthly meetings during the cess year in accordance with the standing order of Government, No. 201A of 26th February 1880. The result of their audit was, on the whole, satisfactory. A copy of Vice-Chairman's report of the 4th December 1886 is herewith submitted (Appendix A).

3. The road cess office and that of the District Engineer's were inspected by Baboo Mohendra Lal Mookerjee, Local Auditor, on the 26th June 1886. His report was to the effect that books and returns were all carefully examined, and found to be in good order. Some few minor irregularities were detected.

4. *Committee's meeting.*—Eight meetings only of the District Road Cess Committee were held during the year, it having been found that all important business could be disposed of in monthly meetings. The Branch Committees at Brahmunberia, Chandpur, Muradnagar and Choudagram met with tolerable punctuality, and the attendance of members at District and Branch Committees was fairly good. * * * *

5. *Roads and Bridges.*—There are three principal district roads of importance in the district, viz., Commilla to Brahmunberia, Chandpur and Navinagar. Not one of these roads, with its feeders noted in the margin, could be kept open for foot passengers and wheeled traffic throughout the year.

(1). *Brahmunberia road.*—From Commilla to Brahmunberia (40 miles long). It is well bridged up to Brahmunberia, except at Nayanpur, and this one break practically has rendered the road useless. The bridge required is being taken in hand, and will, I hope, be finished by March. There still remains three breaks in the communication between Commilla and Brahmunberia sub-

- (1). Feeders to Brahmunberia road are—
 (a). Agurtollah road.
 (b). Gokorno road.
 (c). Serail road.
 (d). Chanta village road.
 (2). Feeders to Chandpur road—

 (c). Choudagram road.
 (d). Chitoshi road.
 (3). Feeders to Companygunge-Navinagar road—

- division, viz., the river Boonee, Titas river, and Gokorna khal, which have been properly supplied with ferry boats. The road is extended up to Serail, and then goes towards Chunta. The plans and estimates for bridging the Serail road with iron-girders and platform bridges were sent to Government for professional sanction, but returned for revision.

(2). *Chandpur road*.—From Commilla to Chandpur (45 miles long). This road is well bridged up to Madafergunge (18 miles). The Committee are making arrangements for the construction of some masonry and iron bridges on the road between Madafergunge and Hajigunge (12 miles). The bridging and improving the road from Hajigunge to Chandpur was postponed till the question of the railway between Chandpur and Chittagong is finally settled. But I propose to resubmit this project.

(3). *Companygunge-Navinagar road*.—This road begins from a point of the Daudkandi Trunk Road near Mynamutty. It is about 38 miles long from Commilla to Navinagar, and is partially completed and bridged up to Companygunge, and will be extended up to Navinagar station on the river Titas. The line taken for the Navinagar road is parallel to our Brahmunberia road, and will run through most of pergunnah Bardakhali when it is finished.

6. *Original works*.—The chief original works taken in hand during the year were the bridging of the Brahmunberia road and of the Kadomtolly khal, and these works were completely finished.

7. *Repairs*.—Repairs have been executed to all the roads noted in the margin in the usual manner, and the more important lines of communication have been kept open for foot-passengers during the rains by means of temporary bamboo bridges, &c.

8. *Planting trees*.—One thousand and three hundred young trees have been planted out, and old plants maintained on the Brahmunberia, Agurtollah, Companygunge, Suburban roads and

village roads; but the recent flood has destroyed many of the well grown Jack trees on the Brahmunberia, Companygunge and Agurtollah roads.

9. *Improving village roads and khals*.—A large amount was spent by the District Committee for village roads and khals during the year under report, for many of their voluntary local contributions were received from the villagers. The expenditure on village roads and khals by each Committee is shown below. In the Sudder sub-division much was spent after local enquiry by the late Chairman Mr. F. H. Skrine, who took great interest in cleaning out silted up water-courses navigable for a greater or less portion of the year. Considering that our arterial communications are not yet complete I would not expend much money on such works at present, but in a few years these khals should be systematically cleaned out.

10. *Steam communication*.—Through the energy of my predecessor Mr. F. H. Skrine, a steamer station with a bungalow has been opened at Shatual, where the up and down steamers from and to Goalundo stop every day at 3 p. m. and 9 a. m. except Monday, from thence our road cess boats carry passengers to Daudkandi, 9 miles above Shatual. The Committee spent about Rs. 1,497 to secure this steam communication. From December 1885, the mails of the whole Chittagong Division have been received 8 hours earlier. The purchase of the proposed steam launch at a cost of Rs. 16,500 is for the present abandoned. The Committee are patiently awaiting the proposed railway communication throughout the district, and when it is finished the Committee will have to spend in a few years a large amount for feeders for it.

11. *Establishment*.—The establishment has worked fairly well, but I cannot single out any officer for special praise.

No. A, dated Commilla, the 4th December 1886.

From—H. M. WEATHERALL, Esq., Vice-Chairman, District Road Cess Committee, Tipperah,

To—The Chairman of the District Road Cess Committee, Tipperah.

UNDER section 179 of Act IX (B.C.) of 1880, I have the honour to submit herewith the annual accounts of the District Road Cess Fund for the cess year 1885-86, as passed by the Standing Sub-Committee at a meeting held this day.

The total receipts of the year including the balance of the previous cess year was Rs. 1,69,476-1-1, and the total expenditure amounted to Rs. 1,16,178-1-3, leaving a balance of Rs. 53,317-15-10 on the 30th September 1886.

The accounts of the year were examined by the Audit Committee once every month, and twelve meetings of the Sub-Committee held for the purpose above alluded to.

The result of the audit was, on the whole, satisfactory, and the Audit Committee found that the prescribed registers have been properly kept up in the District Road Cess office as also in the office of the District Engineer.

The Accountant Baboo Radha Ouarau Roy has been very attentive throughout the year, and given me great assistance in checking expenditure; it is in a great measure due to his watchfulness and care that I have been able to check the monthly accounts.

The second clerk has performed his duties very creditably, and has given great satisfaction.

A third clerk is very necessary for the purpose of keeping down arrears, the work is growing rapidly; unless there is some help in the accountant's office, I am afraid the current work will not be handled efficiently.

H. M. WEATHERALL, *Vice-Chairman,*
District Road Cess Committee, Tipperah.

No. 60R., dated Rangamatti, the 10th January 1887.

From—C. A. S. BEDFORD, Esq., Deputy Commissioner of the Chittagong Hill Tracts.

To—The Commissioner of the Chittagong Division.

IN submitting herewith in duplicate the annual accounts of the Road Fund Department for the cess year 1885-86, I have the honor to state that all the existing roads of the district have been ordinarily maintained by clearing jungle and throwing up temporary bridges. All these works were given in contract and executed, I understand from the District Engineer, satisfactorily.

2. Government having sanctioned the appointment of a temporary supervisor for the survey of the Ruma and Rangamatti road, efforts were made to start the work with all possible despatch; but as it was the latter end of March, the season was far advanced when that officer commenced operations. Several cases of fever and some deaths among the coolies materially affected the progress of the work, and only a trace from Ruma to Politye could be cut.

3. Efforts were also made to improve the road from Burkal to Demagri. The opening out of a new trace from Demagri to Tegga khal was commenced by Lushai and other hill coolies who had previously obtained advances from Government during the year of scarcity. Owing to the disturbances in the Frontier, the unsettled condition of the people generally, only a few men could be obtained and a 3 feet wide trace was cut up to nearly within two miles of this side of Tegga, where it joined the old road. As regards earth-work nothing could be done for want of funds. However on receipt of Rs. 2,500 in March, transferred under your orders from the Police grant, arrangements were made to send up as many coolies as could be hastily got together. Only about one and half miles of the road from Demagri towards Tegga was completed.

No. 83GM—VII-1, dated Chittagong, the 26th January 1887.

From—D. R. LYALL, Esq., Officiating Commissioner of the Chittagong Division,
To—The Secretary to the Government of Bengal, Public Works Department.

I HAVE the honour to submit the annual report on the administration of Road Funds in the districts of this division for the cess year ending 30th September 1886, and to forward the district reports and accounts in original, together with a general abstract of the accounts for the whole division.

2. An abstract of the particulars regarding the meetings of the District Road and Branch Committees in the regulation districts of this division during the year under report is also enclosed.

Chittagong, 20th December 1886.
Noakholly, 29th December 1886.
Tipperah, 3rd January 1887.
Hill Tracts, 12th January 1887.

3. The dates on which the district reports and accounts were received in this office are noted in the margin.

4. The statement below shows the attendance of the members of the District and Branch Road Committees as compared with that of the preceding year:—

	CESS YEAR ENDING 30TH SEPTEMBER 1885.				CESS YEAR ENDING 30TH SEPTEMBER 1886.			
	MEMBERS.		Number of meetings held.	Average attendance at meetings.	MEMBERS.		Number of meetings held.	Average attendance at meetings.
	Official.	Non-official.			Official.	Non-official.		
Chittagong	5	17	11	10	5	16	12	9.75
Cox's Bazar	2	10	7	3.85	2	10	9	2.88
Noakholly	5	12	9	6	5	10	13	6.23
Fenny	2	9	4	6.7	2	9	8	6.1
Tipperah	4	12	7	6.7	4	12	6	7.1
Brahmanberia	6	12	5	6	7	12	6	7
Chandpur	6	15	6	9.5	6	15	8	5.3
Muradnagar	2	18	2	12	2	18	3	10
Chowdhagram	4	11	5	8.6	4	11	4	9

It will be seen from the statement above that the average attendance is below 50 per cent., with the exception of the Sub-Committees of Fenny, Muradnagar, and Chowdhagram.

There were, however, only three and four meetings held at the last-named places respectively.

At head-quarters, attendance was best at Chittagong and worst at Noakholly.

The number of meetings held at the head-quarters were—12 in Chittagong, 13 in Noakholly, and 8 in Tipperah.

I consider that in all districts a sufficient number were held to dispose of the business to be done.

5. The total revenue of the division for the year under review amounted to Rs. 2,94,274-4-7. This together with the unexpended balance of the last year, and the receipts on account of advances and deposits, gave a total income of Rs. 4,62,004-12-11 available for expenditure during the year under report, against Rs. 3,97,724-15-1 in the previous year. The total disbursements, including advances and deposit repayments, amounted to Rs. 3,59,801-3-7, against Rs. 2,66,201-11-8, leaving a balance in hand of Rs. 1,02,203-9-4, against Rs. 1,31,523-3-5 in the previous year. Of this balance, the sum of Rs. 29,283-8-7 belongs to Chittagong, Rs. 18,131-13-6 to Noakholly, Rs. 53,567-15-10 to Tipperah, and Rs. 1,220-3-5 to Hill Tracts. The attention of the several authorities has again been drawn to paragraph 9 of the Government Resolution No. 4227RC, dated 18th December 1885, as to the framing of Road Fund budgets in future, as the result of the past year shows the budgets to have been very carelessly prepared.

Divisional annual account of income and expenditure on account of the District Road Fund of the Chittagong Division for the cess year ending 30th September 1886.

**SURVEY OF INDIA.
NOTIFICATION.**

Calcutta, the 1st April 1887.

THE following rules and regulations, for the issue and receipt of instruments from the Calcutta Mathematical Instrument Office and revised priced list of instruments, are published for the information and guidance of public officers.

By order,

D. MACDONALD, Col., s.c.,

Assistant Surveyor-General, in charge Surveyor-General's Office.

Rules and Regulations of the Mathematical Instrument Office, Survey of India Department

THE Mathematical Instrument Office, Survey of India Department, supplies new and serviceable instruments, &c., and repairs, examines, and adjusts, &c., old ones, on book-debit, for all branches of the public service. As a general rule, new instruments are not supplied, if serviceable instruments of the class required are available for issue.

2. All applications for instruments on the public service must be submitted on the following indent form, which is not required in duplicate, the specification of instruments and particular purposes for which required being made as full as possible. Indent forms may be had on application being made to the Mathematical Instrument Office :—

Indent No. on the Calcutta Mathematical Instrument Office, S. I. Dept., Calcutta, for Instruments required for the use of , dated 188 .

Description of Instruments.	Quantity or number in use or in store.	*Quantity or number indented for.	Purpose for which required.	Average cost as per printed list.		How and where to be despatched.
				Rs.	As.	The address which should be affixed to the parcels or cases to be distinctly given in full. Abbreviations sometimes lead to mistakes.

I do hereby certify that the articles specified in this indent are indispensably necessary for the purposes set forth, according to the best of my knowledge and belief, after the most careful examination.

Recommended.

Signature of Indenting Officer, with designation of appointment in full.

Countersignature of approving authority.

3. All indents must be duly approved and countersigned by the heads of departments, or of the Government under which indenting officers may be serving, before they can be supplied, viz.—

Survey of India Dept., Trig. Branch, by Deputy Surveyor-General.	} or by Surveyor-General,

Geological Survey,	„ Director, Geological Survey,
State Railways,	„ Engineers-in-Chief,
Other Departments,	„ Heads of Departments,

and they should be addressed to the *Officer in charge, Government Mathematical Instrument Office, No. 9, Park Street, Calcutta.*

4. The mode of transit, and address, or station to which the instruments are to be consigned, must invariably be specified on indents in the proper column. Indents should not be accompanied with forwarding letters, unless more explanation is necessary than can be given on the face of the indent.

5. All officers, to whom instruments and other stores are issued on public service, have to account for them to the officer to whom their accounts are rendered, in such manner as may be by him directed.

6. All instruments, and component parts of instruments, when no longer required, should be at once returned to the Mathematical Instrument Office, *except when the Officer in charge considers that their transit charges may nearly equal, or exceed, their actual value as material*; in which case, he should refer to the Officer in charge, Mathematical Instrument Office, for instructions as to their disposal. No unused instruments should be allowed to accumulate in any office, as, if returned, they can be utilised for re-issue.

7. When instruments are considered unserviceable by any officer, a survey should be held on them by a committee of Government officers, whose report should be forwarded to the Assistant Surveyor-General, in charge of Mathematical Instrument Office, who will issue instructions as to which of the articles are to be forwarded to the *dépôt*, Calcutta, and which should be sold by public auction to the best advantage. The proceeds of all articles sold by auction must be deposited in the nearest treasury, and the treasury receipt, with auction account sale, and copy of the committee report, should be attached to the next cash account current, in which the transaction should appear both on the debit and credit sides.

8. When instruments are received for final deposit in store, a valuation receipt will be granted for them by the Officer in charge, Mathematical Instrument Office, to enable officers, from whom received, to remove them from their debit, by forwarding the receipt to the Comptroller of India Treasuries, with the half-yearly or other returns of stores submitted to him.

9. All Government instruments, &c., requiring repair, &c., should be forwarded with an official letter or repair indent.

10. All instruments, &c., received from England and issued on book-debit on the public service, will be charged at their invoice cost, *plus* a percentage to cover freight, insurance, loss by exchange, &c.

11. Instruments made in the workshops, and those purchased locally for issue on book-debit, will be charged at cost rates. Instruments purchased locally for officers not entitled to receive them on book-debit will be charged at cost price, *plus* 5 to 10 per cent. for examining, testing, and incidental charges.

12. Instruments, when they can be spared, are sometimes sold to officers in the service of Government on payment of their value, *plus* from 5 to 10 per cent.; and instruments, the private property of officers, are repaired, if necessary, on like terms. In such cases the amount must be remitted to the Officer in charge, Mathematical Instrument Office, before the instruments can be despatched.

13. Instruments returned into store will be valued according to their condition on arrival at the Mathematical Instrument Office.

14. It should be distinctly stated in the forwarding letters, or on the face of delivery vouchers advising despatch of consignments to the Mathematical Instrument Office, whether the articles forwarded are “for repair” or “for deposit.”

15. All consignments for the Mathematical Instrument Office should be forwarded “*prepaid*.”

16. In the event of instruments, indented for by Government officers, not being available from the Mathematical Instrument Office stock, they can, if urgently required, be usually purchased in the local market. In such cases, however, the Government have ruled as follows:—“When instruments are purchased by the Mathematical Instrument Office in the local market at the request of any Department, they shall be paid for by the department concerned by Remittance Transfer Receipt on presentation of the Bills (letter No. 430S., dated 29th September 1883, from Revenue and Agricultural Department, to Surveyor-General of India”).

17. Officers and departments entitled to issue of instruments on *book-debit* should never remit the price in cash or by Transfer Receipt, unless especially asked to do so by the Officer in charge, Mathematical Instrument Office. The transfer of issues from book-debit to cash, and *vice versa*, causes great trouble in the adjustment of the accounts.

18. It is particularly requested that the size and description of instruments, length of scales, how divided, and purposes for which required, and generally any information, which will guide this office in knowing, without further reference, the exact wants of the indenting officer, be entered, as far as possible, on the face of the indent, instead of in covering letters.

19. The following list shows the nomenclature of the various descriptions of instruments ordinarily kept in store in this office for issue on public service. This nomenclature should be strictly adhered to in all indents.

20. To enable the indenting officer, as well as the officer who countersigns and finally passes an indent, to know the cost involved thereby, the average ordinary price of each description of instrument is also given in the annexed list. Indenting officers must invariably enter the value of all instruments required by them in the column of the indent allotted for that purpose.

21. The supply should be regulated, not according what an officer would like to have, but by what is absolutely necessary.

† Many scales require a careful description. If there is the least doubt as to the correct denomination of a scale, the indenting officer should specify the number of divisions and sub-divisions in a given measurement, and the method of numbering, for instance, 12" divided into 60 parts, numbered successively from 1 to 60, each part to be sub-divided into two.

NOTICE.

It is hereby notified, for general information, that subscriptions to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions for the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

H. A. D. PHILLIPS,

Under-Secy. to the Govt. of Bengal.

The 24th November 1886.

The following revised advertisement is published in substitution of that which appeared at page 1084, Part II of the *Calcutta Gazette* of the 9th July 1884:—

The Indian Law Reports,

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat; the copies for subscribers registered by Messrs. Thacker, Spink & Co., are distributed by that firm; and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1885, the terms of subscription and sale will be as follows:—
